GALVANISED WEATHER GRILLE WITH 82mm SPACED BLADES

BN-GM

BN-GM

BN-GM

DESCRIPTION

The BN-GM είναι a weather grille with big free area. With fixed blades, in 45° angle, 82mm spaced. In the back there is wire mesh 6X6mm (or 12X12mm). For installation in external walls, to protect the HVAC equipment or the building interior from the rain, leaves, insects, small animals and other objects. The grille is manufactured in certain heights.

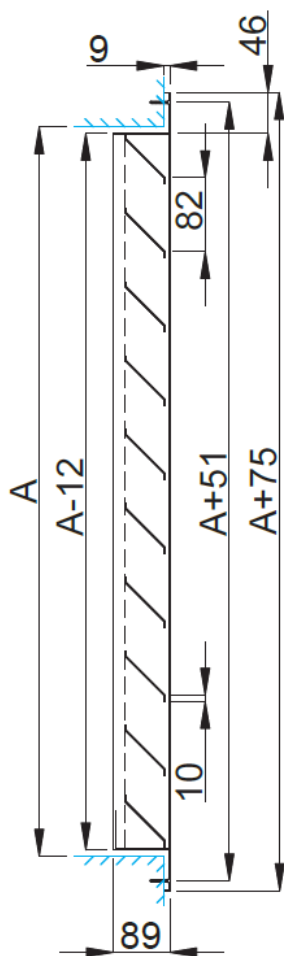

MATERIALS

The BN-GM grille is made from galvanized steel sheet. Electrostatic paint in RAL color is possible. The wire mesh is from galvanized steel.

WAY OF FIXING

The grille BN-GM is fixed in an external wall with visible screws in the external flange.
